

# ATS1290N

Intelligent Addressable Device System bus DGP (IADS bus)

# ATS1290N

## Intelligent Addressable Device System bus DGP (IADS bus)

### Technical specifications

---

#### General

Expander type	Addressable Point ID (PID), Input expander
Product line	ATS Master
Connection type	Databus connection
Max. distance from panel	1.5 km
Max. per panel	15

#### Inputs

Total	32
-------	----

#### Outputs

Total	32
-------	----

#### Electrical

Operating voltage	10.5 to 13.8 VDC
Power consumption	53 mA (no IADS module connected)
Integrated power supply	No
