AJAX

APPROVED. COMPATIBLE. READY TO TEST.

Testing and maintenance solutions developed specifically for AJAX EN54 FireProtect Jeweller detectors.

Approved by
AJAX systems

Smoke &
Heat Testing

Removal &
Replacement

THREE APPROVED SOLUTIONS.

*XTR2 and Solo Access Poles sold separately.

AJAX

Smoke & Heat Testing from a Single Tool

Designed specifically for AJAX FireProtect Jeweller detectors, the adaptor enables both smoke and heat testing using XTR2, reducing the equipment required on site while simplifying maintenance procedures.

Part No. **XTR2-AJAX-ADAP-001**

Removal & Replacement

Solo 230 allows for AJAX FireProtect Jeweller detector removal, replacement and signal-strength surveying from floor level using Solo access poles.

Part No. **Solo 230-001**

Smoke Testing

Solo 332 provides a simple approved smoke aerosol solution. Its large test cup is suitable for AJAX FireProtect Jeweller detectors.

Part No. **Solo 332-001**

XTR2
