now available in

Dark and discreet

Introducing a new black option for our popular PA-6810E & PA-6812E series indoor PIR sensors...

Offering 360° or 12m wide-angle detection from a mounting height of 2m to 4.9m, the black housing blends seamlessly into the dark surroundings of Cinemas, Auditoriums, Night Clubs, Museums and Galleries, providing an aesthetically pleasing installation solution.

Featuring the same ceiling mount design, the same detachable base for easy installation and maintenance, and the same incredible catch performance - now with twice the choice.
