Radio transmitter - ROBUSTA

Product description

A sturdy and reliable radio transmitter with four clearly marked buttons, designed to perform in demanding environments. Its durable, moisture- and impact-resistant build makes it perfect for outdoor use and industrial applications. The buttons are easy to press, even with gloves or for users with reduced hand strength.

Instead of an LED indicator, the transmitter has a built-in buzzer that emits a clear sound signal when a button is pressed.

The yellow and black design ensures high visibility and a sleek look. Its tough casing withstands harsh handling and weather, guaranteeing reliable operation for wireless applications where dependability is key.

Features

- Range up to 200 m
- Encryption: KeeLoq® Rolling Code
- Ergonomic design
- Impact- and water-resistant (IP55)
- Contrasting buttons for improved usability
- Long battery life (2 x AAA batteries)

IP55

0°C to +70°C

RoHS

Technical information

Channels: 4 channels
Range: Up to 200m
LED Indicator: No
Buzzer: Yes
Frequency: 433.92 MHz
Encryption: KeeLoq® Rolling Code
Modulation: AM/ASK
Code Combinations: 2^{64}
Dimensions (L x W x H): 85 x 43 x 25mm
Weight: 73 grams
Power Consumption: 15 mA
Battery Type: 2x AAA-batteri
Protection Rating: IP55
Operating Temperature: 0°C to +70°C
Alternative Article Name: S10TR2641E4
